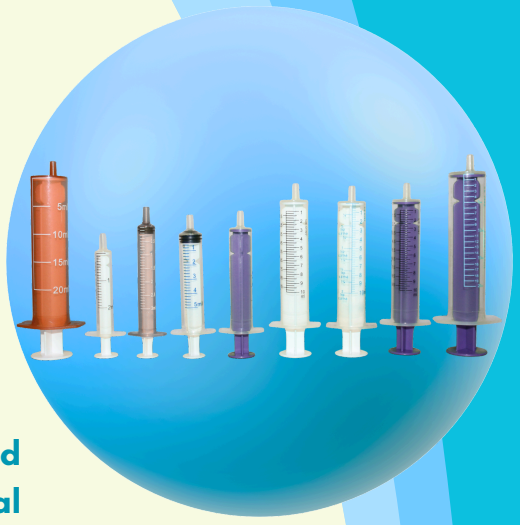
Oral Syringes



Oral syringe comes with barrel, plunger and without needle. These syringes are used for oral dispensing of liquid/syrup in paediatric and veterinary purpose.

Barrel is made up with polypropylene and plunger is made with either polypropylene or high density polyethylene. Barrel always comes with transparent and plungers are made with different colours as per customer requirement. These syringes are compliant with food grade and 21 CFR.

Barrel scales & graduation colours are designed as per the customer requirement. Individual syringes are packed in PE pouches.
Oral syringes are designed for accurate dosage.
Available sizes are 1mL / 2mL / 3mL / 5mL / 7.5mL / 10mL / 15mL / 20mL / 50mL / 60mL & 100mL
